

Trees For Life

Trees For Life is a not for profit environmental organisation which revegetates cleared land and conserves native vegetation.

Since 1981 we have grown over 32 million native seedlings for rural land and direct seeded 2100 hectares including 757 hectares for carbon sequestration.

Trees For Life enables individuals and companies to take direct action to protect the environment for a sustainable future.

Certification of Authenticity

Eco Smart Heating & Cooling

Has cumulatively purchased 49 Voluntary Carbon Units (Global Renewable Energy Projects) and 26 Trees For Land.

These native trees help beautify the landscape, reduce erosion and salinity, absorb carbon and provide vital habitat and shelter for wildlife.
